

# IBHI INDO-UK HIPEC MEET

21st & 22nd  
Nov 2014 @  
MIOT INTERNATIONAL  
CHENNAI

## ABOUT INDO - UK HIPEC MEET 2014

**The Indo-British Health Initiative (IBHI) is organising the Indo-UK HIPEC Meet, the most latest and advanced technique in the speciality in Chennai on 21st & 22nd November, 2014.**

Hyperthermic Intraperitoneal Chemotherapy (HIPEC) is a highly concentrated, heated chemotherapy treatment that is delivered directly to the abdomen during surgery. The procedure also improves drug absorption and effect with minimal exposure to the rest of the body. In this way, the normal side effects of chemotherapy can be avoided. HIPEC is a treatment option for people who have advanced surface spread of cancer within the abdomen, without disease involvement outside of the abdomen.

## BACKGROUND

The Indo British Health Initiative aims to promote scientific collaboration between Health Care Personnel in the United Kingdom and India. It also seeks to facilitate more UK higher education partnerships and business opportunities for UK commercial firms in the healthcare sector in India.

The IBHI foundation was mainly formed to facilitate and channelize these initiatives.

IBHI was established in December, 2011 by

**Dr. Prithvi Mohandas**

(Founder and Secretary – IBHI)

## RECENT EVENTS

The IBHI held events focusing on Orthopaedics (Jan, 2012) and Gastroenterology (April, 2012), followed by a hugely successful Indo-UK Diabetes Summit, the largest ever bilateral healthcare event the UK has ever hosted with India in January 2013 and one of its kind oncology summit in Sep, 2013. This event was attended by leading faculty from both countries, two large UK trade delegations, comprising healthcare universities and private sector companies and about 600 delegates from all parts of India and UK.

## EVENT HIGHLIGHTS

The next major event to be hosted by IBHI, i.e the Indo-UK HIPEC Meet will be held on 21st & 22nd Nov, 2014 at MIOT International in Chennai. As a prelude to this mega event and to encourage participation of young professionals with their fresh thoughts and innovative ideas to initiate constructive interaction IBHI has planned for

- **GRAND ONCOLOGY QUIZ**
- **THE GREAT DEBATE**

## • GRAND ONCOLOGY QUIZ

To challenge participants on how well they understand the various causes, regional impacts, dietary habits, lifestyle influence and prevention measures to impact society at large.

**Eligibility:** Post Graduates

**Rewards:** The winning team will be rewarded cash prize of **Rs. 15000**

## • THE GREAT DEBATE

"The Great Debate" is a program to unearth conflicting standpoints among experts for in-depth analysis of pros and cons of trending therapeutic & advanced surgical techniques.

*For more details please visit [www.ibhi.in](http://www.ibhi.in)*

### LIVE WEBCAST & CHAT

The entire two days event will be streamed live via IBHI website. Online viewers can register and post their query to the moderator and the concerned expert will answer to queries.

### LIVE SURGERIES

Live Surgeries on HIPEC & Cytoreduction will be exhibited. The advanced technique that augments the effectiveness of treatment manifold.

### WHO IS THE SUMMIT FOR?

The summit aims to reach several hundred private and public sector experts across India and the UK – academicians, medical practitioners, medical equipment and service firms. Apart from the main sessions, there will be opportunities to network and forge B2B links.

### THEMES FOR THE SUMMIT

With the extensive knowledge & expertise at the disposal of our two countries, there has never been a better time to bring together leading oncology experts to focus on three main themes:

- Stage a series of scientific and technical presentations by Indian and British experts on the latest treatments, protocols, technological developments and innovations.
- Identify opportunities for enhanced partnerships in oncology education & training, including in curriculum development, specialist nursing and allied health.
- Promote the products and services of UK commercial providers by giving them access to a wide range of clinicians, hospital promoters and decision-makers.

### WE ANTICIPATE A LARGE UK DELEGATION FROM

- Government
- Science / Research
- Business / Pharmaceuticals
- Academia / Education & Training
- Cancer Survivors and their Families
- Health-Focused Civil Society Organizations
- Policy Makers, Politicians and Ministries of Health
- Cancer Prevention, Treatment, Research and Advocacy Organizations
