INDO-UK ONCOLOGY SUMMIT

Hilton, Chennai. Sep 6 & 7, 2013

For the first time, India and the UK are coming together to discuss their strengths and challenges in the area of cancer care, with pre and post programme co-operation as the major aim in this path breaking exchange of technology and learning

About Indo-UK Oncology Summit 2013

The Indo British Health Initiative (IBHI) and the British Deputy High Commission will jointly organise the biggest ever Indo-UK Oncology Summit in Chennai on 6th & 7th September 2013.

As with diabetes and other non-communicable diseases, the rising incidences of cancer present significant challenges to India. Chennai having a large number of leading institutions with many of the country's best oncology centres situated, we therefore see great value in using an event focused specifically on oncology (with an emphasis on some specific organs) to provide a platform to enable strong and sustainable UK-India partnerships, with the IBHI and the UK Government playing a leading facilitation role.

Background

The Indo British Health Initiative aims to promote scientific collaboration between healthcare personnel in the United Kingdom and India. It also seeks to facilitate more UK higher education partnerships and business opportunities for UK commercial firms in the healthcare sector in India. The IBHI foundation was mainly formed to facilitate and channelize these initiatives.

IBHI was established in December, 2011 by

Dr. Prithvi Mohandas

Founder and Secretary – IBHI

&

Mr. Mike Nithavrianakis

British Deputy High Commissioner, Chennai &

Ex Officio President – IBHI

Recent events:

The IBHI held events focusing on Orthopaedics (Jan, 2012) and Gastroenterology (April, 2012) last year, followed by a hugely successful Indo-UK Diabetes Summit in January 2013, which was the largest ever bilateral healthcare event the UK has ever hosted with India. This event was attended by leading faculty from both countries, two large UK trade delegations, comprising healthcare universities and private sector companies and about 600 delegates from across India.

Event Highlights

The Indo-UK Oncology Summit will be held on 6th & 7th Sept, 2013 at the Hilton Hotels in Chennai. As a prelude to this mega event and to encourage participation of young professionals with their fresh thoughts and innovative ideas to initiate constructive interaction, IBHI has planned for

- IBHI GRAND ONCOLOGY QUIZ
- IBHI YOUNG INNOVATOR AWARD

IBHI GRAND ONCOLOGY QUIZ

To challenge participants on how well they understand the various causes, regional impacts, dietary habits, lifestyle influence and prevention measures to impact society at large.

Eligibility: Post Graduates in medicine

Rewards: The winning team will be awarded with cash prize of **Rs. 15,000**

Young Masters Hour for Innovation & Excellence IBHI YOUNG INNOVATOR AWARD

An inspiring award to encourage budding talents – young scientists below the age of 40 from clinical sciences or basic sciences in the field of Oncology - who could provide a spring board to a new technology, protocol or therapy that may assist to change the perception of cancer care.

Participants are expected to submit their papers which will be scrutinized by the committee and the top 5 will get the opportunity to present them at the summit.

Eligibility:

- Age – Below 40 Years
- Open to healthcare professionals, students, scientists and health education involved in oncology

Rewards:

The best innovator will

- Win a cash award of **Rs. 50,000**
- A plaque
- A 6-week probable fellowship in a reputed institution

For more details, please visit www.ibhi.in

Live webcast & chat

The entire two day event will be streamed live via IBHI website. Online viewers can register and post their query to the moderator and the concerned expert will answer to queries.

Meet the Masters

This summit will provide you the opportunity to meet and interact one-to-one with the UK experts in the field of oncology. You may discuss any interesting proposition or innovation.

Live poll

Live poll option is available for online viewers to cast their vote for their favorite contender for the IBHI Young Innovator Award.

Themes for the summit

With the extensive knowledge & expertise at the disposal of our two countries, there has never been a better time to bring together leading oncology experts to focus on three main themes:

- Stage a series of scientific and technical presentations by Indian and British experts on the latest treatments, protocols, technological developments and innovations.
- Identify opportunities for enhanced partnerships in oncology education & training, including in curriculum development, specialist nursing and allied health.
- Promote the products and services of UK commercial providers by giving them access to a wide range of clinicians, hospital promoters and decision-makers.

We anticipate a large UK delegation from

- Government
- Science / Research
- Business / Pharmaceuticals
- Academia / Education & Training
- Cancer Survivors and their Families
- Health-Focused Civil Society Organizations
- Policy Makers, Politicians and Ministries of Health
- Cancer Prevention, Treatment, Research and Advocacy Organizations
